"I take great pleasure in transmitting to you a copy of the preamble and resolutions reported by the joint committee on Federal Relations to our House on yesterday, and which passed by the very significant vote of one hundred and sixteen to nineteen I the second lundred lun voluntary, generous, and, in my opinion, most noble tender of the olive branch of peace."

The resolutions referred to in the above letter are to be found elsewhere.

Judge Simpson's Resolutions.

The following are the resolutions which have been adopted by both branches of our Legislature. They do not look much like, immediate secession:

WHEREAS, The people of some of the States feel themselves deeply aggrieved by the policy and measures which have been adopted by the people of some of the other States; and whereas, an amendment of the Constitution of the United States is deemed indispensably necessary to secure them against similar grievances in the fature;

Resolved by the General Assembly of the Commonwealth of Kentucky. That application to Congress to call a Convention for propostucky, and we hereby invite our sister States to unite with us, without delay, in similar

application to Congress.

Resolved, That the Governor of this State forthwith communicate the foregoing resolu-tion to the President of the United States, with the request that he immediately place the same before Congress and the Executives of the report of the committee the entire of the several States, with the request that preamble, and insert the following: they lay them before their respective Legis-

Resulved, If the Convention be ealled in accordance with the provisions of the foregoing resolutions, the Legislature of the Coamaonwealth of Kentucky suggest, for the consideration of that Convention, as a basis for settling existing difficulties, the adoption by way of amendments to the Constitution the resolutions affered in the Sen ate of the United States by the Hon. John J. Crittenden.

All accounts from Washington-always excepting telegraphie-agree in the opinion that "the signs of the times" are improving. Secession is like a fever. It will either kill the patient or exhanst itself in a given time. Disunionism is now on the decline, and will rapidly go down. The reaction has already commenced in the cotton States. The masses of the people are rebelling against the dictation of the few. From present indications there will be civil war in Mississippi and Alabama if the secessionists attempt to enforce their treasonable acts.

States thus aggrieved have the undoubted right to withdraw from the Confederacy.

Senators and Representatives from each Congressional District, are appointed delegates to represent the State of Kentucky in that or represent the State of Kentucky in that Convention.

Resolved, That if all the efforts we have attempted by these resolutions to inaugurate violations of the Federal Constitution by the northern members of the Confederacy give each of these States the right to exercise its own judg and such others as may be promptly made, shall fail to produce an adjustment of the property for the present, I desirct reutithe to withdraw from the Confederacy.

Senators and Representatives from each Congressional District, are appointed delegates to represent the State of Kentucky in that Convention.

Resolved, That if all the efforts we have attempted by these resolutions to inaugurate, and such others as may be promptly made, shall fail to produce an adjustment of the store of T. S. Page & Co., St Clair st., or to Tuos. S. P. 16.

THE ANALGAMATION OF LANGUAGES .- There is THE ANALGAMATION OF LANGLAGES.—There 1st growing tendency in this age to appropriate the most expressive words of other languages, and after n while to incorporate them into our own thus the word Cephalic, which is from the Greek signifying "for the head." is now becoming popularized in connection with Mr. Spalding", great Hendache remedy, but it will soon be used in a more general way, and the word Cepbalic will be come as common as Electrotype and many others, whose distinction as foreign words has been word away by common u age, until they seem "nutive and to the manor born."

Hi 'ad 'n 'errible 'eadache this halternoon, hand I stepped into the hapotheearies hand says hi to the man, "Can you hease me of nn 'eadachc?" "Does it huche 'ard," says 'e. "Exceedingly," says bi, hand upon that 'e gave me a Cepbalic Pill, hand 'pon me 'onor it cured me so quick that I 'ardly realized I 'ad 'ad an 'headachc.

Il Cadache is the favorite sign by which na ture makes known any deviation whatever from natural state of the brain, and viewed in this light it may be looked on as a sufeguard, intended to give notice of disease which might otherwise es ape attention till too late to be remedied; and it ndications should never be neglected. Hendache indications should never be neglected. Hendaches may be classified under two aumes, viz: Symptountic and Idiopathic. Symptomatic Headache is exceedingly common, and is the precursor of a great variety of diseases, among which are Apoplexy, Gont, Rheumatism, and all febrile diseases. In its nerveus form it is sympathetic of disease of the stomach constituting sick headache, of hepatic disease constituting bilious headache, of worms, constitution and other disorders of the bowels, as well as renal and ntering affections. Diseases of well as renal and other disorders of the elevers, as well as renal and interine affections. Diseases of the heart are very frequently attended with Hend aches; Anæmia and plethora are also affection which frequently occasion headache. I dispathi Illeadache is also very common, heing usually dis-tinguished by the name of nervous headache, some-times coming on suddenly in a state of apparently sound health, and prostrating at ourse the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or accibity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be anned Neuralgia.

For the treatment of either class of Ileadache the Cephalic Pills have been found a sure and safe remedy, relieving the most acute pains in e few minutes, and by its subtle power eradicating the disenses of which beadache is the unerring Index.

Constitution or Costiveness,

Ne one of the "many ills fleab is heir to" is s revalent, so little understood, and so much negprevalent, so little understood, and so much neglected as Costiveness. Often originating in carelessness, or sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in renlity it is the precursor and ompanion of many of the most fatal and danger us disenses, and unless early eradicated it wil bring the sufferer to an untimely grave. Among the lighter evils of which costiveness in the usua attendant are Headnehe, Colic, Rhenmatism, Fou Breath, Piles and others of like nature, while a long train of frightful diseases such as Malegnan long train of frightful diseases such as Mahgnant Frevers, Aboesses, Dysentary, Diarrhae, Apoplexy, Epitepsy, Paralysis, Ilysteria, Ilypochondrinsis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the disease named originate in Constipation, but take on an independent existence unless the cause is cradicated in an early stage. From all these considerations it follows that the disorder should receive immediate untention whenever it occurs, and no person should tion whenever it occurs, and no person should neglect to get n box of Cephalic Pills on the fire appearance of the complaint, a their timely use will expel the insiduous approaches of disease and destroy this dangerous for to human life

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofnlous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, emptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not serofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which deeimates the human family has its origin directly in this serofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same eause.

One quarter of all our people are serofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To eleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the bloed, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, St. ANTHONY'S FIRE, Rose, or Envirelas, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTEE and SALT RHEUM, SCALD HEAD, RINOWORM, RHEUMATISM, SYPHILITIE and MERCERIAL DIS-EASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TED ON IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for serofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.
